

Invitation for Participation in the 28th ISTS Exhibition

Dear Sir and Madam:

The 28th International Symposium on Space Technology and Science is going to be held in Okinawa Convention Center, Ginowan-city, Okinawa Prefecture, from June 5th(Sun.) to 12th(Sun.) 2011.

The Organizing Committee of the 28th ISTS is planning an "International Space Exhibition" at the symposium site with space related exhibits such as models, components, photographs and films. As you know, Okinawa is famous for its beautiful subtropic nature surrounded by coral reef and a treasury of indigenous biology. In addition, because of long history of asia-pasific regional exchange, Okinawa has its peculiar culture. We believe this exhibition will give you good opportunities for exchanging specialized information with participants and will also give you good opportunities to make contact with the people of Okinawa living in warm islands filled with peace-loving heart.

On behalf of the Organizing Committee of the 28th ISTS, we would like to invite you to take part in the exhibition and to show your activities. Obviously, your participation will contribute to the success of the exhibition and the Symposium.

The guidelines and application form for the "28th ISTS Exhibition Program Participants" can be down load from the 28th ISTS Web site. (<http://www.ists.or.jp>) If you wish to apply for the exhibition, please complete and return the form to the 28th ISTS Exhibition Secretariat not later than **February 14, 2011** . We will send further information to those who have returned the form. If you have any questions, please do not hesitate to contact the Exhibition Secretariat.

We are looking forward to your participation to make the Symposium as attractive and successful as possible.

Sincerely yours,

Yoshihiro ARAKAWA
General Chairperson
28th ISTS

Kazuo TACHI
Chairperson, Exhibition Committee
