In case of additional construction, please consult with the exhibition committee and carry out at the exhibitor's expense.

10. Disaster prevention regulations for decorative materials:

Please be sure to observe the following regarding the decorative materials used in the exhibition hall.

- ① For plywood veneer, printed veneer, etc., use flameproof treated boards regardless of thickness.
- ② When attaching a thin cloth or paper with folds to the flameproof plywood or fastening with nails, use a flameproof material. However, it can be used because it is considered as flameproof plywood if a thin cloth or paper is stuck to the whole surface.
- ③ Carpet, curtains, flags (banners), fiberboards, artificial flowers, fabrics, paper, and other flammable materials should be flameproof. Each of these items must be labeled with a flameproof label.
- ④ Please do not use Styrofoam, Hong Kong flower, urethane, polyester, nylon, etc. as it is difficult to give flame resistance.

During the construction period or the session, there is an inspection by the competent fire department, and the object without the flameproof indication may be ordered to be

removed.
